# MINUTES

LWDSC Meeting 18 Aug

Present: KW, DS, GR, CBD

The minutes of July 7 and 21 were approved with edits

Whether or not to endeavor to be in a position to make suggestions for legislation to be sought

- KW mentioned that he had obtained when he was in Helena the Report to the Montana Environmental Quality Council which was circulated to the subcom.
- The discussion favored monitoring legislative proposals for unintended consequences
- There was some support for considering recommending to the Board of Health that it enlarge its role and reducing that of DEQ
- There was general agreement that the timing of the subcom.'s work and the legislature's schedule might not permit making substantive legislation suggestions, particularly in the absence of receipt of advice as to existing law

CBD reported on the GLWQD's current consideration of extending its boundaries to include Big Sky, Amsterdam, Churchill and Logan. The discussion concluded that the topic merited further discussion at a later time when more information was available

at subsequent meetings, suspending the fact gathering effort,

The contents of a further engineering study was discussed based on an 18 Aug revision of the 7 April draft template, recognizing that the words were very tentative at this stage and offered as a means of raising the various items. Each item was discussed. It was agreed to continue focusing on the scope of study until the subcom. was satisfied with a draft for discussion by KW with the Commission. CBD undertook to produce a revised draft reflecting the discussion.
