

The Montana Guide to Home Education

This guide, which has been distributed free for many years, is now an online version. You can find it as a new link on the home page of www.mtche.org

The Guide is still available for free distribution. The only requirement for distribution is that the copyright notice be clearly displayed. So feel free to either print individual pages, the entire document, or pass the link on to others. The new Guide has an updated Support Group listing, revamped Resource page(s), and a listing of county superintendents. Please note the new bulletin board with announcements of statewide events. If you have any announcements of statewide interest, please let Steve White know (white@imt.net).

The Guide will be updated often and the version date of each Guide will be included on page 3. Please feel free to give your comments or suggestions to make it even more useful and helpful to the home educators across the state.
